

OUR VISION

Necedah National Wildlife Refuge exemplifies a diverse and productive ecological system of woodlands, savannas, and wetlands managed to perpetuate listed species, waterfowl and other migratory birds, and native biological diversity.

Refuge staff are a multi-disciplined team of biologists, technicians, and support staff who are dedicated to providing high quality wildlife-dependent public use opportunities to a diverse and supportive public.

The Refuge is a model in its commitment to create long-term mutually-beneficial relationships with its stakeholders, and has produced consistent growth in the public's understanding and appreciation of the Refuge, the National Wildlife Refuge System, and Service trust resources.
